Vikings In Gridiron Drills

VIKINGS hard at work polishing their offense as they prepare for the opening of the pigskin season with the Harrison Hornets here on Friday, September 13th.

The first sign of fall appear- ed last week as the Vikings of Crawford - AuSable schools turned out for football practice.

Head coach Mike Weiland will have twelve returning let- termen to form this year's grid squad around.

Don Ferguson will again as- sist Coach Weiland and Frank Smith will have charge of the Junior Varsity squad.

The practice tempo gained momentum this week as the Vikings prepare for a scrimmage date with the Roscommon Bucks this Friday evening at the local gridiron. Both varsity and JV's will lock horns with their counterparts from Roscommon. The scrimmages will begin at 8 p.m. and there is no charge for admission. The practice will give local pigskin fans a pre- view of this year's Viking hope- fuls.

Harrison Hornets will open the regular season here on September 13th, with the Vikings playing Grayling in another non- conference battle at Grayling September 20.

Mike Smock and Bruce Burk- ett will be filling the quar- terback slot for this year's Viking squad, Coach Weiland said.

Rounding out the backfield with either Smock or Burkett will be Dale Papendick, Dave Holmes and Allen Lowe.

Possible starters at the ends include Wes Hayes, Butch Hayes and Vern Hartman, with Paul Mauren and Rick Holmes hold- ing down the tackle slots.

John Hunter, Joe Thompson and Bob Mead are challenging each other for the starting guard positions, with Dave Mc- clain slated to start at center.

Other players that give the squad good backup material in- clude Larry Stephenson and Tony Ellison in the backfield. John Horning and Louis Maur- or will be in the line, along with defensive men who are ready, Richard Persing and Gary Vaj- da.

JV coach Frank Smith will have only one returning from last year's squad in Jim Corlew at a guard post. About 35 boys are expected to be suited for the games.

Sophomores expected to see plenty of action this season in- clude linemen, Mert Theaker, Doug White, Arnold Gilman, Doug Legg, Jack Skolaski, Roger Johnson, Duane Halstead, Billy Hatfield and Bob Mitch- ell.

Backfield hopefuls are: Tim Mead, Jerry King, Murray Bab- bitt, Greg McClain, Chuck Bon- amie and Rolly Wilkins.

It is still a little early for a careful appraisal of the fresh- men, Coach Smith said, how- ever, Jim Tobin, Kim Parkin- son and Mike McNamara have looked good in the early prac- tices.

The Viking first game in the newly formed Northern Lower Michigan League will be on Fri- day night, September 27, when they will entertain the Onaway Cardinals.

Participating schools in the conference include: Mancelona, East Jordan, Grayling, Harbor Springs, Pellston, Onaway, Kal- kaska and Petoskey St. Fran- cis.

Our Man In Chicago

Compares GOP, Dems Convention

By Richard Millimon

CHICAGO — The over-riding impression coming out of the 1958 national political conven- tions is a somber and even fright- ening one.

It is the fear and apprehension abroad in our nation today which suggested—even demand- ed—such tight security mea- sures as representatives of the people met to conduct the na- tion's business.

In Miami Beach, we thought that security was tight. Security officers were everywhere—in the hotel, with rifles drawn at the convention hall, with helmets and binoculars and rifles on the roofs of buildings, in helicopters twirling ever overhead.

But that was as nothing com- pared with Chicago, where there were security officers between security officers, and too many of them were too anxious to ex- ercise their authority. Mayor Daley, in most opinions, was guilty of security over-kill.

In Chicago, they added barb- ed wire, and federal troops, and a mobilized national guard, and machine guns, and tear gas, and bloody billy clubs.

In Chicago, of course, we also had the added problem of mass- ed demonstrators—some of them peaceful, obviously some of them militant agitators, perhaps some of them communists or dedica-

ed anarchists, certainly some of them honestly committed to what they were doing in the cause of peace as they saw it.

The bloodshed in Chicago last week certainly was deplorable. Most of it was unnecessary; but without a doubt, some of it was necessary to maintain order.

But in both Miami, and more so in Chicago, any thoughtful person had to shudder more than a little for the state of America today, when such an open dis- play of official armed might is considered helpful or even neces- sary for the protection of people involved in the free processes of our society.

The use of this force, such as was called into play in Chicago, was sickening.

But the mere presence of this force, in both Miami and Chi- cago, goes to the deeper prob- lem—the fundamental problem of whether our free society will continue to exist as we have known it.

No answers were presented at either convention, and certainly I don't have the answers.

But like most others who at- tended either convention, the mere question itself must fright- en you.

One thing that stands out in recalling the Democratic con- vention is the impression of dis- unity within that party at this point, and the tremendous job Mr. Humphrey and other party leaders face in pulling the party together.

This is due to a combination of factors, most interlaced with the basic dissension over Viet- nam. The hard-liners defeated the soft-liners at every turn in a frequently bitter series of en- counters. But although in the minority, the anti-Vietnam seg- ment was always substantial.

And the heavy hands of Mayor Daley, Chairman Carl Albert and others running the conven- tion procedures in denying dis- sent within the hall and squash- ing anything that wasn't on schedule, didn't help a bit to heal the rifts. These leaders were guilty of another type of overkill—the unpopular and un- necessary sin of parliamentary overkill.

Mr. Humphrey, in what I thought was a terrifically ap- propriate acceptance speech, held open the door for those he had vanquished and urged them to come back home.

What a contrast this provided to the Republican situation four years ago, when Sen. Goldwater faced with a somewhat simi- lar problem of bringing unity to his party after a bruising con- vention—used his acceptance speech to slam the door in the faces of those who had opposed

Woman Drowns In Margrethe Last Thursday

The body of Mrs. Rosemary Irene Phillips, 22, of Roseville, was recovered from the waters of Lake Margrethe about 6:20 p.m. last Thursday after she slipped out of an inner tube, of- ficials said.

Roger Phillips, husband of the victim, said he motioned to his wife to come into shore when he saw she was some 50 yards off shore. However, when he looked back on to the water he did not see her and summoned help.

Crawford County coroner, Dr. Paul Dosch, pronounced the vic- tim dead at the scene.

Girl Scouts Fund Drive Here Sept. 9-19

Girl Scouting helps our daugh- ters — and now we have an op- portunity to help Scouting. The Big Waters Girl Scout Council is asking for your support now during its fund raising cam- paign.

One of your friends may be calling on you this week to tell you about the Girl Scout program and explain its finan- cial needs. All funds received will remain in the Big Waters Council to pay for the services and properties the girls use.

When you contribute you make it possible for more girls to en- joy the benefits of Scouting. Girl Scouting isn't just a girls' club. It is an international move- ment based on the ethical code of the Promise and Laws.

The purpose of Girl Scouting is to help girls grow into happy and resourceful citizens. Even if you haven't any daughters, you have a stake in Scouting. Everyone does, because when the girls in our town benefit, the town does, too.

Girl Scouting today makes bet- ter citizens tomorrow. Support the Girl Scout Fund Drive!

The fund drive here is chair- manned by Glenn Sawyer, vice president of the Grayling State Bank.

Theresa Marie Reynolds and
Chester Joseph Gowin Jr. spoke
their marriage vows at two
o'clock on Saturday Aug. 11
at a Nuptial High Mass at the
St. Mary of the Woods Catholic
Church in Kalkaska. Father Joseph
Wicklerak, assisted by
Father Stanley Bur, cousin of
the bridegroom, performed the
ceremony before 140 guests.
Elaine M. Poliski provided the
music.

Parents of the couple are Mr.
and Mrs. Levern Reynolds of
rural Kalkaska, and Mr. and
Mrs. Chester Gowin of Port
Huron.

The church was decorated in
the bride's colors of blue and
white. On the arm of her father,
the bride approached the altar
in a white floor length gown with
bracelet - length sleeves and
four tiered skirt, ending in a
chapel train. She wore a waist
length veil and carried a bouquet
of white roses and miniature
carnations centered with a white
gardenia. She placed a bouquet
of white asters and snapdragons
on the altar.

Laverna Reynolds was her sister's
maid of honor. Bridesmaids were
Miss Susan Reynolds and
Bernadine Reynolds, also sisters of
the bride. They wore identically
styled gowns with fitted bodice,
a-line skirts, and chiffon capes in
varying shades of blue. They carried
bouquets of blue and white
carnations.

Attending the groom was his
brother Donald Gowin of Port

Huron, best man. Brothers Jerome
Gowin and Gary Gowin, Port
Huron, seated the guests.

The bride's mother chose a
black and white dress with white
accessories, while the groom's
mother was attired in a green
dress with white accessories.

Following the ceremony a dinner
was held in the church
basement. The color theme
again was blue and white. A
reception followed at Bear Mountain
Lodge where the couple cut
a four tiered wedding cake.

The bride attended St. Raphael
of Gardiner, Mich., and St. Constantine
of Detroit. The groom at-
tended St. Stevens and spent
two years in the Army.

The bride's going-away suit
was a blue and white check with
black accessories. Following a
honeymoon trip through the upper
peninsula, Ontario, Wisconsin
and Minnesota the couple
will reside in Port Huron.

Out of town guests were from
Maple City, Cheboygan, Garden
City, Kalamazoo, Dearborn
Heights, Jackson, Hudson, Top-
inabe, Portage, Vicksburg,
Plainville, Bellevue, Port Huron,
Detroit, Lawrence, Fife Lake,
Kalkaska and Cleveland, Ohio.

Miss Linda Kay Gothro,
daughter of Mr. and Mrs. Don
Gothro of 605 Maple Street, gradu-
ated from Butterworth Hospital
of Nursing, Grand Rapids, in
exercises, held at the Fountain
Street Church at 8 o'clock Friday,
Aug. 30, in a class of 60.

Linda is a 1954 graduate of
Grayling High School. She plans
to work at Grayling Mercy Hos-
pital.

NEW GOLF COURSE NOW OPEN AT BOYNE HIGHLANDS

Northwestern Michigan's new
est golf course, Boyne Highlands,
near Harbor Springs, will
rank as one of the 10 outstanding
golf courses in the United
States.

That's the opinion of its de-
signer, famed Robert Trent
Jones of Montclair, N.J., generally
regarded as the country's
No. 1 golf course architect.

"The strength of these holes is
terrific," enthused Jones as he
gave his final approval. "Be-
cause the tees range in length
from 100 to 220 yards, the tee
markers all placed in sequence
so the course length can be 5,600,
6,000, 6,400, 6,800, and 6,800
yards, Jones explained.

"Behind each tee there is a
putting green which can be used
to lengthen the course to 7,300
or 7,400 yards if necessary for a
major tournament.

"The tremendous flexibility of
the tees has two basic assets.
No one can say the course is
too long when he can choose the
length he prefers to play. Sec-
ondly, everybody, from his par-
ticular driving position, can ar-
rive at the same target area
from the tee, leaving relatively
comparable shots to the green."

Boyer Highlands is unique in
that it will be the first course
in the world to have Pennecross
bent grass for tees, greens and
fairways alike. Pennecross is the
newest seed bent developed from
a mutation of three parent
strains by Dr. Bert Musser at
Penn State.

Pennecross can be cut closer
than other bents, which presents
a maintenance problem at
Boyer Highlands, since the
greens' average 10,000 square
feet in size, according to Everett
Kircher, who owns Boyne High-
lands golf course, as well as the
Boyer Country ski resorts -
Boyer Highlands, Boyer Moun-
tain, Walloon Hills, and Thun-
der Mountain.

Simplifying course mainte-
nance is an automatic watering
system, electronically controlled,
with which the entire course
can be watered in six hours
without a single man on the
course. It is controlled by clock.

Local School Students Study Conservation

By Daniel Kesselring
Work Unit Conservationists

City youngsters are getting a
chance to learn about natural
resources through outdoor con-
servation laboratories that are
being established by the Nation's
schools at a rapidly increasing
rate.

Hundreds of schools have re-
ceived technical assistance from
the Soil Conservation Service in
planning and establishing the
outdoor education areas.

"A generation of young people,
80 percent of them growing up
in cities and towns, need a
chance to learn about natural
resources," Secretary of Agri-
culture Orville L. Freeman said.
"Outdoor conservation areas
provide real-life experiences in
land and water resources to sup-
plement classroom work and in-
still in our youth an intelligent
concern for them," the secretary
said.

Outdoor laboratories offer a
practical and inexpensive way
to provide children with first-
hand conservation experiences.
They can range from a small
area close around a school build-
ing to an expanse of many acres.

Regardless of size, they offer
opportunities for nature study,
for observing the effects of
plants and animals on each other,
for growing plants, and many
kinds of experimentation, coupled
with developing an appreciation
of the outdoors.

Large sites often include nature or
conservation trails, wildlife areas,
ponds, woodland management
areas, and Christmas tree plan-
tations.

At least 287 schools in Michi-
gan have become cooperators
with local conservation districts
and have received technical help
from the Soil Conservation Ser-
vice in establishing outdoor con-
servation laboratories. The Lin-
coln elementary school at Cold-

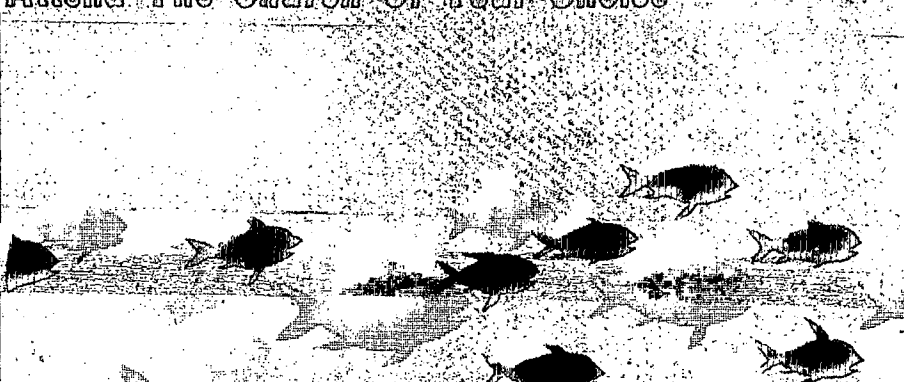

water, for example, has estab-
lished a model watershed on 1 1/4
acres that includes a detention
dam, diversion terrace, and
grassed floodway. Water from
the school's roof and lawn, di-
rected through the model, shows
students how watershed control
measures function. The back-
slope of the dam is a wildlife
habitat. Ann Arbor high school
has a 27 acre outdoor classroom
that includes nature trails in
10 acres of woodland and an
open area kept as a farm.

In Crawford County the Craw-
ford-Ausable School District is
now in the process of develop-
ing outdoor laboratories to make
use of land that was previously

idle. These developments will
provide excellent learning con-
ditions for students of biology and
conservation, and will help all
students develop a greater ap-
preciation for our natural re-
sources.

Howard Taylor, Grayling High
School teacher is leading the
school program, with assistance
from Dan Kesselring, Work Unit
Conservationist of the Crawford-
Roscommon Soil Conservation
District. The School District be-
came a cooperator with the Soil
Conservation District last fall
and have been working on plans
for a comprehensive conserva-
tion program through the past
year.

Where the Fish Are

Granddad loves to fish. Secretly, I think he likes to talk about it equally as well. He spends hours with his friends arguing the pros and cons of "angling." The other day I overheard a lengthy controversy about the best place to fish. Granddad ended the whole matter with these words of wit and wisdom, "If you ask me, the best spot to fish is out there where the fish are—so let's get going!"

This special brand of humor greatly appealed to all of his friends and it remained in my mind long after they had left. It seemed to answer those nature lovers who claim that they can worship God out of doors as well as in church. For certainly, the best spot to worship God is where God is.

Worship means not only moments of adoration and praise but also thoughts channeled toward God. The Church has the living presence of the Lord and inspires spiritual thoughts through hymn, prayer, and litany.

Yes, the best place to lift up the heart is in the house of God.

Cost of Red Tape

Recent survey has indicated that it costs business some \$1,750,000 per year to do the paper required by government. As an example, the time required for filling out forms for reports alone was found to be 33 minutes per employee. State forms require 24

t of Progress

Annalist Gunder Berg, writing in the Chronicle, North Dakota, quotes a letter said to have been received from the Governor of New York by President Andrew Jackson in 1829. He says, "The canal system of this country is threatened by the spread of a new form of transportation known as 'railroads.' The federal interest must preserve the canals for these reason. If canal boats are supplanted by railroads unemployment will result. Captains, cooks, hostlers, repairmen and lock tenders will without means of livelihood, not to mention men now employed in growing hay for 2. Boat builders would suffer and towline, harness makers would be left destitute. . . . In the beginning of the Industrial Revolution, prophets of gloom and opponents of change predicted dire results with the introduction of new invention or innovation. They have all proven wrong, yet every day we see they are active in promoting restrictions and devices to maintain the status quo."

Brady has been spending 30 days with his parents, enjoying a furlough following one year's service spent in the European theater of war.

He saw action in Germany, France, and Austria, and wears the ETO Ribbon with two stars and the Good Conduct Medal. He was to report to Camp Grant at the end of his furlough.

Soil District Names Officers

By Daniel F. Kessalring
Houghton King, Jr., of Houghton Lake was reelected to chair the Crawford County Soil Conservation District Board for another year at the recent District Directors meeting held in the Soil Conservation Service Work Unit office in the Roscommon County Building.

Other officers elected were: Stanley Hummel, Frederic reelected for another year as vice-chairman; Andie Neilson, Roscommon, treasurer and Louise Sullenger, Roscommon, secretary.

Harry Martin, St. Helen and Louise Sullenger, two new directors elected at the District's first annual meeting, were sworn into office by Sue Murphy, Notary Public and Probate Court secretary.

The Soil Conservation District Board of Directors decided to sponsor a tree and shrub sales project in the spring of 1969. This project is part of the District's effort to stimulate reforestation and wildlife habitat development on private land.

The Board will be having a joint meeting with a neighboring District this fall to learn how best to handle a tree sale project. Most Soil Conservation Districts in Michigan carry on active tree sales and planting programs.

Requests for assistance were received and approved for the following landowners: L. D. Riley, Backus Township; F. Kane, (WRACO Lodge) Roscommon Township; R. Semann, Grayling Township; and G. Gyde, Gerish Township.

Lowly Stone Comes Into Its Own

By Willard Bosserman
County Extension Natural
Resource Agent

Lots of stones will be needed for revetments to protect stream banks from erosion. The results of a stream bank study by Lou Anne Higgins for the AuSable River Watershed Study Council shows that there are many places where revetments are needed to stop erosion. The Michigan Department of Conservation has settled on two types of erosion control methods as being most effective. The one which is most permanent and with the least maintenance needed are the stone rip rap revetments. The Department does not use stone as much as it would like to because large amounts of stone are not available. They use a "log jam" type of structure which is very effective in preventing further eating away of the stream bank but does require maintenance.

Donald Sims, Department foreman showed Miss Higgins and myself some of these structures. Vegetation was growing on stee. Vegetation was growing on once bare sandy banks because the erosion was stopped. Only places where people continued to use the steep bank for access to the river were the banks still bare.

The trip did prove that stream bank erosion can be stopped and the wounds healed.

Stones, tons and tons of stones are going to be needed to stop stream bank erosion. Broken concrete will also work. Anybody knowing of a quantity of stones please contact the Cooperative Extension Service giving location and owner of the stones. The Extension office is in the County Building, Roscommon. Phone 275-5043.

Are You An Alcoholic?

Are you an alcoholic? If your answer is "I don't know," answer the following questions either yes or no.

1. Have you ever tried to stop drinking for a week (or longer), only to fall short of your goal?
2. Do you resent the advice of others who try to get you to stop drinking?
3. Have you ever tried to control your drinking by switching from one alcoholic beverage to another?
4. Have you taken a morning drink during the past year?
5. Do you envy people who can drink without getting into trouble?
6. Has your drinking problem become progressively more serious during the past year?
7. Has your drinking created problems at home?
8. At social affairs where drinking is limited, do you try to obtain "extra" drinks?
9. Despite evidence to the contrary, have you continued to assert that you can stop drinking "on your own" when you wish?
10. During the past year have you missed time from work as a result of drinking?
11. Have you ever "blacked out" during your drinking?
12. Have you ever felt you could do more with your life if you did not drink?

What's your score? Did you answer YES four or more times? If so, chances are you have a serious drinking problem, or may have one in the future.

These questions were prepared by Alcoholics Anonymous World Services, Inc., who base them on the experience of tens of thousands of recovered alcoholics.

"Alcoholics Anonymous is a fellowship of men and women who share their experience, strength and hope with each other that they may solve their common problem and help others to recover from alcoholism."

"The only requirement for membership is a desire to stop drinking. There are no dues or fees for A.A. membership; they are self-supporting through their own contributions. A.A. is not allied with any sect, denomination, politics, organization or institution; does not wish to engage in any controversy; neither endorses nor opposes any causes. Their primary purpose is to stay sober and help other alcoholics to achieve sobriety."

No one can tell someone else he has a drinking problem; this is something you can only tell yourself.

If you are interested in meeting with this organization every Thursday evening at the City Hall, phone 348-4551.

ANNUAL OAKS REUNION HELD

The 47th annual reunion of the Oaks family was held amongst the Pines at Hartwick State Park on Sunday, Aug. 11. There were present 75 acorns among the pine cones, coming from Flint, Swartz Creek, Clio, Flushing, Vanderbilt, Mt. Morris, Tawas City, Royal Oak, Wolverine, Birch Run, Owosso, Roscommon and Grayling.

Everyone sat down to well-laden tables of delicious food at one o'clock, and I'm sure ate their fill.

The business meeting was called to order following dinner by president Leo Palmer and approved by all. An election of officers was held for the year 1969 with the following results: president, Ray Oaks; vice president, Ralph Oaks; secretary, Layna Stuckey; entertainment committee, Virginia Oaks and Fern Farrell. A vote was taken for next year's gathering, leaving a choice between Richfield or Flushing Parks, whichever would like to accommodate the Oaks.

Chances on a penny prize (thermal blanket) were offered and the prize won by Danny Johnson, a guest with No. 216. A guess was ventured by many on a jar of beans, and the closest in this was Ray Oaks, missing the correct count by three beans. Mrs. E. M. a Morse of Birch Run was the oldest present.

ent, 76 years young. Pamela Clum at 8 1/2 months was the youngest present. There were races and games for all ages, congratulations going to the winners.

The time soon came for the annual ball game, everyone who desired joining in for lots of fun and exercise. And, as was the custom after the ballgame, the young and the young-at-heart headed for the Park store for ice cream.

Came then the time for departing, with happy thoughts of next year.

Do Not Put Your Lawn To Bed Hungry

By Willard Desormer, County Extension Natural Resource Agent

The frequent rains have kept the grass growing well this summer. This is all well and good but some lawns ran short of nutrients. Some lawns showed signs of nitrogen deficiency early in the summer. Nitrogen is also the nutrient to which grass most greatly responds.

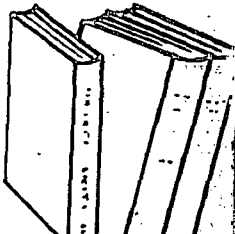

A little plant food applied during September will give the grass a chance to recuperate before going into winter dormancy (to bed).

A general rule is to apply a fertilizer high in nitrogen like 20-5-5 at the rate of 15 pounds per 1,000 square feet. Other analyses will do. Make sure the nitrogen content is high. It is the first figure in the analysis.

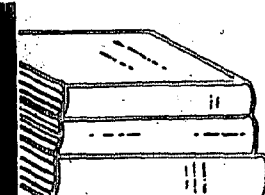

Fall is a good time to apply a weed killer to kill those fall germinating seedlings. 2,4-D is an old stand-by and is sold under many brand names. It kills broad leaf weeds but does not harm the grass.

Some companies have combination fertilizer and weed killers so the job can be done on a once over basis.

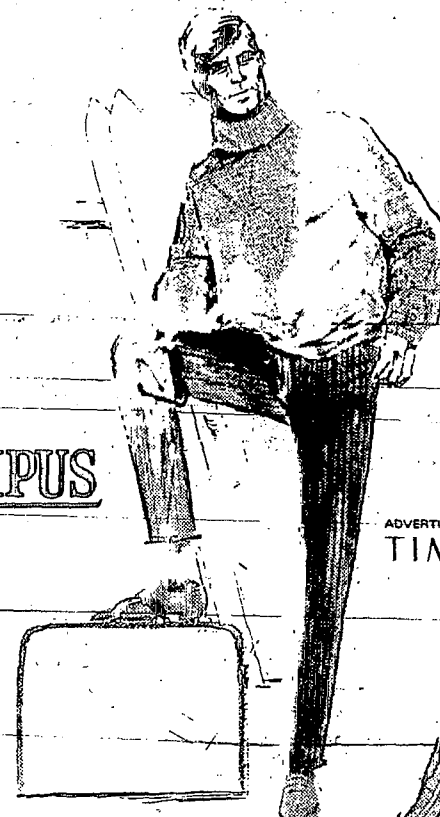

For good lawn this fall and next spring start by feeding your lawn now.

Council Proceedings

Regular meeting of the City Council held Monday, Aug. 26, 1968 at 7:30 p.m. in the City Hall.

The meeting was called to order by Mayor Pro-Tem Broadbent at 7:30 p.m.

Councilmen present: Golinick, Broadbent, Thomson, and McEvers.

Councilmen absent: Sorenson.

Citizens present: City Attorney Ward E. Ellison, Joseph Stripe and Gerald Burns.

Minutes of previous meeting held on Aug. 12 were read and approved.

Joseph Stripe and Gerald Burns appeared before the Council on behalf of the school board with the request that the Council consider collection of school taxes for city residents as a part of summer tax statements. The Council was advised that recent changes in state law has authorized such collection. The purpose of such collection is primarily to save the school board the necessity to borrow funds in anticipation of future tax revenues with a saving of interest to citizens. The request was tabled pending investigation.

Bids were opened on purchase of a pick-up truck as follows: Scheer Motors, Inc. \$1,874.00. Hart Ford Sales, \$1,937.57. McEvers Motor Sales, Inc., \$1,999.00.

The Council found that bids met specifications and a motion was made by Councilman Golinick, supported by Councilman McEvers to accept the bid of Scheer Motors Inc. for \$1,874.00. Motion carried by four votes "yes" to none "no."

A statement for professional services was presented from Richards, Findorff and Richards in amount of three hundred forty-one dollars and sixty-eight cents (\$341.68). McEvers moved to accept the statement and authorize payment. Golinick supported the motion and it carried unanimously.

Mayor Pro-Tem Broadbent, after some discussion, requested City Manager Cliff to obtain prices on new and used calculators for the city as requested by Mr. Papenfus.

City Manager Cliff made a report to the Council in respect to problems and prospects in respect to chemical treatment applied to sewage plant.

The meeting was adjourned at 9:35 p.m. by Mayor Pro-Tem Broadbent.

Foreign Drunks Favored

Drunken communist Poles are apparently a great threat to the peace of the world. Just why apparently sober communist Poles are no threat, but become one when they have had a couple too many, is not clear.

It especially was not clear to Congressman Richard Rouds-bush of Indiana when he discovered that some of the funds for the billion dollar a year Food for Peace program were financing sobering up stations for Polish alcoholics.

As a matter of fact the House Agricultural Committee failed to see just what connection there is between giving food to help starvation and extending aid and comfort to Polish, or any other foreign drunks.

The committee went on record with the statement "in the opinion of the committee, projects of this kind tend to precipitate ridicule and criticism which impede the effectiveness and diminish support for the whole program. This committee does not support this project and recommends its immediate abandonment."

Actually, the House Agricultural Committee went even further in digging into the situation. As is well known, the Food for Peace program is based on the fact that the American farmer is plagued with surpluses that cannot be sold.

But so loose is the connection between the Food for Peace program and the law as passed by Congress, is supposed to be used primarily for buying American surplus and shipping it abroad where needed.
